Two-Year Old Child Drowns in Shallow Water at Cross Lake

Clifford Smith Family Had Resided There But Two Weeks

Not until a bloodhound was used to track the course of little Beverly Smith, 2, was her body found Sunday evening in Cross lake where she had drowned in one foot of water. Clifford and Betty Smith, parents of the child, moved to the lake two weeks ago from Wheeling, Ill.

They reported her missing about 8 p. m. and the Kenosha County sheriff's police, the Twin Lakes Rescue squad, and Boy Scouts Emergency squad of Kenosha county, began the search.

Miss Lee Jewell, accompanied by Jeff, a trained bloodhound, covered an area approximately 30 square yards around the home before the dog led her to an embankment on the Harold Hess property at the lake shore.

Sheriff Marshal Simonsen went into the lake at that point and discovered the child's body in one foot of water. Efforts to revive the child were futile.

The body was taken to the Strang Funeral home and later to the Scott Chapel, Evanston, for services and burial.

Guest Trumpet Player Pleases Audience at Public Band Concert

Crowds Increase, Girls Trio Also Adds to Program Tuesday Night

Living up to all the advance publicity given him, Roger Rinaldi, 17-year-old Park Ridge musician thrilled the audience with his trumpet at Antioch's public band concert Tuesday evening.

Rinaldi gave all the appearance of a finished and accomplished musician. His tone, his interpretation of his selections, and his manner were especially good. It could readily be seen why he has won superior ratings at all of the state music contests.

Adding to the program were the vocal numbers of the trio, Rosalie Morris, Nancy Swenson, and Donna Reidel, who were accompanied at the piano by Wendy Midgley.

The band itself pleased the audience with its rendition of Dvorak's "New World Symphony" and selections from "Kismet."

The crowds continue to grow with each concert. Much of it is now limited to those in parked cars because there are no seats. Were there seats the attendance would be much larger.

The next concert will be in two weeks.

Much Interest Shown In Boxing Program of V.F.W. Next Thursday

The boxing exhibition scheduled for next Thursday, July 1 at the high school gym under the sponsorship of the Veterans of Foreign Wars already has attracted much attention from followers of the sport.

Much interest has been shown as to the outcome of the main bout between George Panter and Bom Bom Willis. Panter tips the scales at 194 pounds and has an excellent record, having won 79 of his 91 fights. He was fifth army champion, then all-army champion and to top it off was Golden Gloves champion in 1953.

He will swap punches with the slightly heavier Willis who has won 65 of his 85 fights and won the Eastern States championship this year.

The Lake County champion, Sidney Davis will try to put the Missouri State champ, Rudy Downey, in his place in the fourth fight, and in the sixth bout, Herman Gearin, Wisconsin state middle-weight champion will try to put away Jim Case, a 1954 Golden Gloves champ.

Oscar Sorenson will referee. One of Antioch's own wrestling stars, Billy Goetz, will be the announcer. The committee considered itself lucky to get Goetz because he is a busy man with his program and training.

The Antioch community band will be on hand to entertain before and between events.

Tickets are going rapidly and a large crowd is expected. They will be on sale at the gymnasium where the event will open at 7 p. m.

No Safe Fireworks—Says Safety Engineer

There are no safe fireworks! "Anything from caps to skyrocket is potentially dangerous," according to Willis G. Labes, assistant professor of fire protection and safety engineering at Illinois Institute of Technology, Chicago.

"The peril of fireworks is multiplied many times when inexperienced persons, in a holiday mood, engage in the use of such materials," Labes said.

Even sparklers, which had been considered relatively safe for children, have been known to set clothing on fire and cause blindness, he pointed out.

For a "safe and sane" Fourth of July, Labes suggested that people view organized pyrotechnic displays operated by experts rather than risk their lives with fireworks.

Hickory Corner Area Again Petitions to Join Antioch School

More Signatures to Petition Than First Presented To Co. Board

The north part of the Hickory Corner School district seems determined to join the Antioch Grade School district.

A one-mile square area first petitioned the Lake County Board of School Trustees for withdrawal from District 27 and annexation to the Antioch consolidated district No. 34. This was granted.

Then the District 27 board appealed the decision to the circuit court and on agreement of both sides, the case and matter in general was dropped.

Last week, however, the petitioners with a few more names added, refiled with the county board.

The new petitions meant an additional \$27,000 tax valuation for a total of \$150,000 and a total of 1 1/2 square miles withdrawal from Dist. 27.

Such a substantial withdrawal would make the one-room Hickory Corner school inoperative on the tax income and the number of pupils.

The hearing on the petition will be on July 6. Whether the board will repeat its original decision is not known.

In another petition filed with the board, four families in Gurnee are seeking withdrawal from Spaulding district and incorporation with the Gurnee district. The families live in the village of Gurnee.

Robert Wilton, member of the county board, said he has been notified that a petition has been filed by residents in the east edge of McHenry county along Rte. 173 to join the Channel Lake School district.

Hugo Bleich who opened his Beach Grove Rd. subdivision about eight years ago south of Antioch, is tearing down a large barn on Rte. 59 in preparation of erecting houses there. The foundation of the barn will form the foundation of a house. Bleich has 35 acres east of the highway which he is preparing to subdivide into half acre lots and has another 20 acres which he will break up into one acre lots. He already has sold fifty or more lots and already a number of houses have been built along the Beach Grove Rd. highway, and on Rte. 59. The land was formerly known as the Hucker estate.

Douglas Kindy New District Executive of N. S. A. C. Boy Scouts

E. A. Schwechel, scout executive of the North Shore Area council, announced today the employment of Douglas Kindy as district executive for the Skokie Valley District effective July 1.

Mr. Kindy has served for the past four years as Assistant Scout Executive of the Nicolet Area Council at Green Bay, Wis. He was a Boy Scout, attained Eagle rank and served as a volunteer on a troop committee and as a neighborhood commissioner. He spent four years in the Merchant Marine and Navy in the Pacific area. He is a graduate of the Winona State Teachers College of Winona, Minn.; is married and has three children.

Mr. Schwechel said "The employment of Mr. Kindy will make possible the direct field service of a professional district executive to each of the four districts in the council." The council will go into the fall season with a full staff to give leadership to the very comprehensive Scouting program planned for the coming year.

Scout Camp Opens

The twenty-fifth season at Camp Ma-Ka-Ja-Wan, the Boy Scout camp operated by the North Shore Area council near Antigo, Wis., will open on June 24 (today) with a capacity reservation for all four periods. A total of 975 scouts have reserved space at the camp this season which represents a 40 per cent increase over the 1953 season.

Pony League Team To Play Wauconda At 3 p. m. Sunday

Antioch's Pony League team will be out to avenge a defeat at the hands of Wauconda last Thursday when it meets these southern neighbors at 3 p. m. Sunday at the Antioch Little League field.

The Antioch players thought they had the game at Wauconda all sewed up last week when they scored six runs in the first inning and picked up three more before the seventh to give them a five-run lead as they went into the last inning.

Then the sky fell. Over-anxiousness resulted in errors which coupled with walks gave Wauconda the game in this inning. The winning run came as the result of a walk that forced a score across the plate.

The Antioch players will go to Island Lake this evening for a twilight contest.

Springfield, Ill. — Requiring an examination for motorists 70 years of age or older who apply for renewal of their driver's licenses is resulting in "thousands of motorists learning traffic law essentials and fundamentals of good driving," Secretary of State Charles F. Carpenter said today.

On their first try, more than half of the over-70 groups fails to pass the examination, but on the second or third try, they pass the tests, Secretary Carpenter said. Since most of the failures occur in the sign identification and practical driving ability sections of the examination, the results show improved driving practices, he said.

"This good influence for traffic safety far outweighs the inconvenience caused by the failures," Mr. Carpenter said.

One of the persons who failed to pass the examination on the first try was Secretary Carpenter's 76-year-old mother, Mrs. Louise Carpenter. A week later, on her second try, she passed.

New Type of Permit Issued

A new type of driver permit is being developed for elderly people who are capable of driving a motor vehicle only under certain conditions. Secretary Carpenter said. This restricted permit, issuance of which will start soon, will allow the individual to drive at certain times of the day and over certain prescribed routes, probably only in his home community or on little-used roads between communities. In most cases, it will not permit driving in heavy city or fast highway traffic.

Secretary Carpenter said nationwide experience has shown that a slowing up of reflexes, physical disabilities and sometimes inflexible driving habits developed over a long period make significant numbers of persons 70 or older a potential danger to themselves and others on the highways.

In one five-week period, beginning May 1, 2,690 of 4,410 applicants failed to pass the examination. The tests are for vision, ability to identify traffic signs and signals, knowledge of traffic law, practical driving ability, and motor vehicle inspection. A score of 70 is required on each of the sections.

Must Know Safety Requirements

"The purpose of the examination is not to remove drivers from the road," Secretary Carpenter said. "It is to assure that the motorist knows the primary laws requisite for safe driving, and that he can meet minimum reasonable requirements for safety."

Some complaints have been received that questions in the traffic law tests are "unreasonable," Mr. Carpenter said. He cited one concerning a multiple choice question asking whether a motorist was required to switch on headlights: (1) 30 minutes before sundown; (2) at sunset; or (3) an hour after sunset.

An applicant answering (1) or (2), instead of (3), the correct answer, is graded incorrect even though the error was on the side of safe practice, the complaint said.

Secretary Carpenter pointed out that such an incident would not cause an applicant to be failed, unless he had missed six other questions on the exam. No one is failed because he misses a particular question, he pointed out.

Similar examinations are given in other populous states attempting to maintain high driver control standards, Secretary Carpenter said.

Plans to Meet Monday

Are You a Heel at the Wheel?

The National Safety Council, which is coordinating a nationwide Fourth of July safety campaign, holds up six mirrors. If you can see yourself in any of them, then be prepared to become a holiday statistic.

THE ME-FIRSTER—this is the selfish competitive character who must be first away from the traffic light, can't stand to have anyone pass him, and risks the life of anyone who gets in his way.

THE BIG I—this is the fellow who is too big for the rules. Others can obey the law and a code of decent and courteous behavior, but not this self-inflated big shot. He's above all that.

THE KNOW-IT-ALL—this driver is good, in his own estimation. He knows just what the other driver is going to do, just how fast he can stop, just how much room he needs to cut in on another car. But the only way this over-confident jerk escapes disillusionment is that the really good drivers give him a wide berth.

THE SWASHBUCKLER—this fellow thinks he expresses his masculinity or something by living dangerously behind the wheel. He believes that he who hesitates is lost, and that his luck will hold forever.

THE SOREHEAD—this fellow is just plain hostile. He drives with a chip on his shoulder and is ready to lock fenders for any real or imagined wrong. He's sore at everyone, and very brave while surrounded by a steel automobile with the windows rolled up.

THE SHOW-OFF—this is the exhibitionist. He's graduated from no hands on a bike to no sense at the wheel. He just wants people to admire his flashy performance, but most other drivers are too busy getting out of his way.

Take a good, long look at yourself in one of these mirrors. See anything?

A heel at the wheel gets by because the good drivers give him the margin of safety he fails to give himself. But the heavy Fourth of July traffic will reduce that margin. Watch it!

Warping the Intent of Congress

Public power zealots in key positions misinterpreted the intent of Congress, as expressed in the Flood Control Act of 1944, in order to foster government development at the expense of private enterprise.

That, in effect, is the opinion of a recognized authority—A. J. G. Priest, Professor of Law at the University of Virginia.

The Act in question contains the much debated clause providing that preference in the sale of federal power is to be given to public bodies and cooperatives. But it also says that the power shall be disposed of "in such manner as to encourage the most widespread use thereof at the lowest possible rates to consumers consistent with sound business principles." It further states that power is to be made available on fair terms not only to public bodies, but to privately owned companies.

Apparently the influential public-power group seized happily onto the preference clause to the exclusion of other stipulations. Mr. Priest cites a 1945 order by the then Secretary of the Interior which can be construed as saying: "Do everything you can to convert investor-owned, tax-paying utility property into Government-owned, tax-eating utility property." That was plainly the policy for many years.

The proper step now is to get rid of the preference clause and all other unfair "class" clauses and statutes. As the Neeligh, Nebraska, Leader, said succinctly: "No U. S. citizen should be discriminated against in the sale of federal hydro power."

* * *

The Key Word

A business leader said this the other day: "We need more frank and basic discussion in defense of private capitalism—not in terms of bath-tubs and washing machines, but in terms of sound fundamentals." If that can be achieved on a big enough scale, he continued, civic meetings and social gatherings "no longer would be ready-made platforms for the promulgation of ideas and theories alien to human liberty."

The material fruits of the capitalistic system—the bathtubs and washing machines and everything else—are enormously important. They mean that our living standards are the envy of the world. But those fruits are the result of something still more important, which can be described in the single word freedom. The implications of that word need discussion and understanding.

So This Is Slavery!

The very substantial increases in wages that have taken place in the postwar era are not the limit of labor's gains.

Preliminary reports from a Chamber of Commerce of the United States survey indicate that fringe benefit costs—employer payments for social security, pensions, vacations and other purposes—amounted to \$735 per employee in 1953. The figure is \$95 higher than that obtained in a similar survey, covering the identical firms, made two years ago.

This, it might be pointed out, has occurred while the Taft-Hartley law, which Union leaders still monotonously call a slave-labor act, was in effect. Some slavery!

Pinehurst Homes, Inc. South Route U. S. 12 Offers New Residences

Pinehurst Homes, Inc., South U. S. Highway 12, Fox Lake, Ill., are offering for the first time in the Chain O' Lakes Region, an outstanding group of quality built, economical homes. These contemporary architecturally designed homes have been consumer tested for years and meet the needs of families requiring three or more bedrooms. Already four model homes are under construction in the Fox Lake area. The low cost down and monthly payments together with the numerous special features in these homes make the word "fantastic" take on greater meaning. For example, such quality firsts as Twin-down and Thermopane windows, heated bathtubs, perimeter heating, disappearing stairways, industrial roof, built-in screens—these are just a few of the features found in these standard built construction homes; and the payments are as low as \$43.07

a month for veterans and non-veterans who qualify.

Raymond G. Michael, president of Pinehurst Homes, Inc., in a recent talk attended by George Stanszak, vice-president, and Hal W. Kabus, general sales manager, stressed the point that these are not prefab or shell type homes, but are custom built quality homes, built on the location chosen, within the vast exclusive territory assigned to Pinehurst Homes, Inc. During the meeting it was estimated conservatively that after the first public showing, a minimum of 500 of these homes will be built in well planned subdivisions and on owner's lots throughout the community.

Channel Lake Notes

Mr. and Mrs. Henry Homan of Channel Lake observed their 39th wedding anniversary on Saturday, June 19.

Mrs. Frank Brett had two grandsons and their families as week end guests. They were Mr. and Mrs. Norman Olsen, Jr., and son Norman III (1 year old), and Mr. and Mrs. Peter Olsen and son, Peter, Jr., (4 months old). On Sunday Mrs. Richard Thorne, with her four tots, and Miss Mary Frances Olsen arrived for the day. Mrs. Thorne is a sister of Mary and the boys, and all four are residents of Chicago. They are the children of Mrs. Brett's oldest child, Mrs. Norman Olsen, Sr.

Mrs. Brett has 26 grandchildren and she expects to have them all together for the first time in July, when two daughters from the West are expected to visit.

Mr. and Mrs. Otto Kulin, of Channel Lake, observed their thirtieth wedding anniversary on June 14. Mr. and Mrs. John Lind were week-end guests on June 12 and 13, as their thirtieth wedding anniversary is June 28, and these two couples have celebrated together many times. The observance this year was early, as Mrs. Kulin is leaving for California this week.

Mr. and Mrs. Kulin, their daughter and son-in-law, Mr. and Mrs. Lewis Sershon, Mr. and Mrs. Lind and their daughter and son-in-law, Mr. and Mrs. Glen Austin, had dinner the night of June 12 at the Swiss Chalet at Lake Geneva to observe this festive occasion.

Wed in Wilmot Church Service Sat. Morning

Nuptial mass joining Miss Arlene Carol Kunz of Wilmot and Francis Dale Lux of Antioch took place Saturday morning at 11:15 o'clock in Holy Name church at Wilmot.

Gladioli and daisies decorated the church and altar where the couple stood to exchange vows. The Rev. Harold O'Connor was the officiating priest at the rite for the daughter of Mr. and Mrs. Ben Kunz, Wilmot, and the son of Mr. and Mrs. Francis Lux, Antioch.

Mrs. George Merkt, soloist, and Mrs. Katherine Schenning, organist, supplied the music.

Swiss embroidered organically fashioned the bride's waltz length gown. It was designed with a Grecian neckline, short sleeves and a skirt of deep tiers. She wore elbow length gauntlets and a silk illusion veil held by a headpiece of pearls and beads. The bride carried a prayer book decorated with stephanotis and ivy. Her father gave her in marriage.

Miss Darlene Lux, the bridegroom's sister, was maid of honor. Her blue ballerina length dress featured a lace bodice and a net skirt with tiers on ruffles extended from the waist to hem. A stole covered her shoulders, and she carried a bouquet of yellow daisies. Miss Judy Schnurr, wearing a yellow copy of the maid of honor's ensemble, was bridesmaid. Her flowers were blue daisies.

Patrick Harmond was best man and Ronald Kunz, brother of the bride was groomsman. Dinner was served at the bride's home, followed later by a reception at the Legion hall, Silver Lake. The bride was a graduate of the Union Free High school, Wilmot. Mr. Lux is serving in the navy at present.

We Invite Back-Door Burglars, Says Survey

MILWAUKEE — The natural route of burglars—the back door—is the least protected part of suburban and rural households, according to a recent check of sheriff's burglary reports by a lock company.

The survey disclosed that while elaborate lock systems usually barricade the front entrance, skeleton-key door locks are usually found on rear doors.

The rural burglary rate jumped 10 per cent nationally last year. Northern Illinois sheriffs hold the increase of traffic in suburban areas largely responsible for the steady rise in rural burglaries.

Frozen Dessert, Low in Calories, Is Ice Creamish

URBANA, Illinois—More than two million Americans who will not or cannot eat ice cream will soon be able to buy a close substitute. Called frozen dessert, the substitute has been developed by University of Illinois dairy technologists.

Frozen dessert is low in fat and low in calories. It has only about a third of the fat and little more than half the calories of ice cream.

Probably most non-ice-cream eaters shy away because of fear of gaining weight. But there are a million known persons, and perhaps another million unknown, who can't eat ice cream because they suffer from diabetes and must be careful of their carbohydrate intake. In 1940 diabetes ranked ninth as a cause of death in the United States.

Researchers at Illinois have developed a product that looks and tastes like ice cream but that is completely different in its effect on the body. Both diabetics and dietetics can eat it without worry of putting on weight or eating too much sugar. This is the first low-calorie ice cream substitute that fits into the diet of both groups.

Frozen dessert was made possible through the discovery of a sugar substitute known as sucaryl, which is 30 times sweeter than ordinary sugar. The new sweetener was discovered purely by accident. A chemist at the University of Illinois laid a cigarette on a plastic table top and afterwards noticed that the burned portion tasted sweet.

Writes 14 Million Words, No Cramp!

FORT MADISON, Ia.—Fourteen million words of handwriting without a trace of writer's cramp. That's the record of Irene Williams, this city's nominee for the nation's penmanship title.

Miss Williams tests writing instruments in the world's biggest pen factory here. She writes continuously nearly every working hour of her working day. When she's not writing, she's examining what she has written and for the past seven years she has averaged 7,000 words and figures daily.

Until two years ago, Irene was half of a unique team known lo-

Life on Mars? Science Closer to the Answer

WASHINGTON—Is there really life on Mars? We may know more about this possibility within the next few months. During June, earth's near neighbor will come within 40,000,000 miles, its closest approach since 1941.

A team of astronomers are now in South Africa and under the direction of Dr. E. C. Slipher, famed for his studies of Mars, will play a leading role in the world-wide study of the Red Planet.

Throughout the summer, 17 other observatories in Australia, Argentina, Egypt, France, India, New Zealand, Japan, Java, and the United States will study and photograph Mars. Both the 100-inch telescope at Mt. Wilson, California, and the 200-inch instrument on Palomar Mountain will be trained on the planet.

The South African station is expected to contribute the major observations of the atmosphere and the surface phenomena since it will pass directly overhead each night.
